

TRITON CENTRAL HIGH SCHOOL

Dear TCHS Parents;

On December 21, 2009 construction on phase two of the building project began after many months of planning. As a result, the building will look significantly different when students return on January 5, 2010. All of the ceilings in the hallways have been removed and installation of the new HVAC system is underway. The administration plans to meet with all students on January 5th to discuss safety issues and expectations regarding construction. This is a process that will impact the building for the remainder of this school year and part of the next as classrooms are converted over for New Tech. We want you to be aware of the changes.

Also, the NWCS D school board passed an addendum to the student handbook regarding attendance. The policy concerns excessive absences and trancies. The full addendum is posted on the TCHS website under Information and Policies. Click on Handbooks and find the tab titled Attendance Addendum.

If you have any questions please call the office at 835-3000.

Sincerely,

Scott Kern, Principal
